

Dear students, use your holidays for your personal development, hobbies, completing the learning gaps and playing of course.

Here some of the topics are given, out of which you have to **choose any one topic/ subtopic** and create a science project.

**Enjoy your hobby in a scientific way and submit the record as a science project.**

1. **Craft** : Make paper craft / DIY / designer Charts on any topic from your science textbook
2. **Sculpture**: Make clay models / paper pulp clay models / 3d models
3. **Music** : You can make song / rap song / video / tutorials
4. **Games** : Create your own scientific games with rules and regulations.
5. **Drama** : Roleplay or Acting on any science topic / concept.
6. **Toys** : Make a simple toy working on a science concept or to explain a concept.

Please complete your notebooks and learning work up to the syllabus completed till date.

Happy Holidays
